

Enterprise-grade IT for small & medium businesses.

Cloud, cybersecurity, Microsoft platforms, and infrastructure — delivered with 28 years of hands-on engineering. From a single office network to a full company migration, SMB work is welcome and done properly.

SMALL TO MEDIUM BUSINESSES WELCOME

WHAT WE DELIVER

Cloud Migration & Azure

Lift-and-shift or greenfield Azure design, Office 365 tenants, identity, and hybrid readiness.

Cyber Resilience

Zero-trust posture, endpoint protection, monitoring, backup, and recovery plans that hold up when connectivity is hard.

Servers & Hyper-V

Physical-to-virtual builds, clustering, and infrastructure that gets the most from what you already own.

Networking & Microsoft 365

Secure LAN/WAN design, VPN/SD-WAN, Exchange, Teams, SharePoint, and Intune — set up so people actually use it.

28

YEARS OF MASTERY

IDEAL FOR SMBs THAT NEED

- ▶ A trusted IT partner, not a ticket mill
- ▶ Clear next steps after every conversation
- ▶ Secure systems without enterprise bloat
- ▶ On-site or remote work across the Pacific
- ▶ Home offices to multi-site operations

Not sure where you stand?

Request a security audit — we'll map your risks and return a practical remediation plan.

Let's scope your system. Request a consult.
